## Nonstructural Risk Reduction

Project ID: STM.02N

### Description

Project includes floodproofing non-residential properties where 100-year flood depths are 1-3 feet, elevating residential properties where 100-year flood depths are 3-14 feet, and acquiring residential properties where 100-year flood depths are greater than 14 feet.

### Scale of Influence

### Project Location

St. Mary Parish

### Project Duration

Construction is estimated to take 2 years.

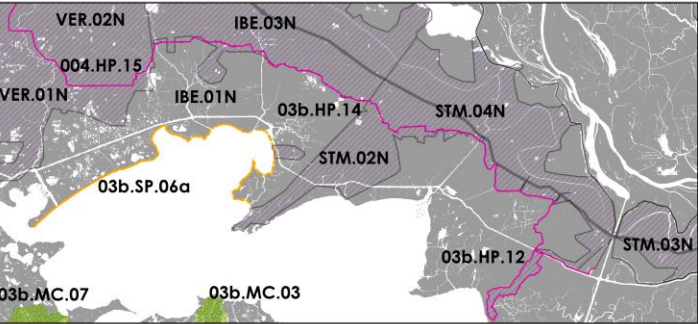

### Project Cost Estimate

Voluntary Measure	Structures Mitigated	Estimated Cost
Non-residential Floodproofing	5	\$1,400,000
Residential Elevation	69	\$10,700,000
Residential Acquisition	8	\$3,700,000
<b>Total</b>	<b>82</b>	<b>\$15,800,000</b>

### Note:

Cost Estimate does not represent specific residential or commercial structures to be mitigated.

## Nonstructural Risk Reduction

Project ID: STM.02N

### Economic Damage

Nonstructural risk reduction projects are evaluated by how they reduce Expected Annual Damage (EAD) for a particular area. EAD represents the average direct economic damage projected to result from storm surge flooding events, from Category 1 or greater storms, in any given year, taking into account both the expected damage and the overall frequency of such storms occurring. EAD is a summary measure of the potential damage averaged over the entire distribution of possible flood events. Damage is also summarized at various return periods (DRP), e.g., 100-year damage being the damage with a 1% chance of occurring or being exceeded in a given year. The following are the economic damage summaries for the Future Without Action (FWOA) and Future With Project (FWP) conditions for EAD (Table 1) and by return period (Table 2). EAD and DRP values are reported in millions of dollars.

**Table 1: Expected Annual Damage**

<b>Year</b>	<b>FWOA</b>	<b>FWP</b>	<b>Difference</b>
0	\$8 M	-	-
10	\$9 M	\$8 M	< \$1 M
25	\$10 M	\$9 M	\$1 M
50	\$14 M	\$12 M	\$2 M

**Table 2: Economic Damage by Return Period**

<b>Year</b>	<b>50 Year</b>		<b>100 Year</b>		<b>500 Year</b>	
	<b>FWOA</b>	<b>FWP</b>	<b>FWOA</b>	<b>FWP</b>	<b>FWOA</b>	<b>FWP</b>
0	\$132 M	-	\$168 M	-	\$172 M	-
10	\$163 M	\$148 M	\$202 M	\$166 M	\$219 M	\$174 M
25	\$160 M	\$146 M	\$219 M	\$171 M	\$228 M	\$178 M
50	\$233 M	\$187 M	\$241 M	\$208 M	\$243 M	\$213 M
